

---

This is the patched keygen for Chief Architect Premier X12, version 22.5.2.56. There are many reasons why someone might want to use this patched keygen over the old one, but suffice it to say that if you are looking for a way to patch Chief Architect Premier X12 client, then you've come to the right place! This one-time purchase will last you until 21st February 2017. This patch is only for 32-bit Windows, not 64-bit. You can also get the 32-bit version patched here . Just enter the serial number you purchased, retype it here , and this will be done. This patch is not provided with a complete installation package of any form, so you will need to install it yourself onto your computer. It's most simple to do using the default setup file that will come with your purchased product key right out of the box. You can then run that download and follow on screen prompts to finish the installation. Chief Architect Premier X12 itself can be downloaded directly from Chief Architects website, or from the Chief Architect Premier X12 page on this site. If you encounter any problems using the patched keygen, you can contact me at [kaos@kaos.rocks](mailto:kaos@kaos.rocks) with full details and I will work with you to resolve any issues you may face. This article's status is: Final (22/02/2017) → Article is finalised and ready for distribution.
